Welcome to Intelligent Light Therapy!

1 The most advanced wearable light therapy technology ever, DNA Vibe's patent-pending Jazz Band delivers four complementary modes: red, near-infrared, pulsed magnetic, and micro-vibration.

2 These four modes work harmoniously to help reduce inflammation, stiffness and pain while accelerating and improving recovery from injury, surgery, or just the daily grind.

3 The signature geometry and flush-fitting silicone construction are computer-optimized to fit every part of the body (knees, neck, back, shoulders, elbows, ankles, hands, feet, and more).

4 97% of users report improvement across a wide range of issues, from joint & muscle pain, stiffness, injury or post-operative recovery, arthritis, neuropathy, neck & back pain, tennis & golfers' elbow, planter fasciitis, cramping and more.

5 DNA Vibe is trusted by 100's of Pro & Olympic athletes, 1,000's of clinical therapists, and tens of thousands of users. Featured on NBC's TODAY SHOW as a go-to wearable for Olympians.

6 Together we're making the world a better place, one better life at a time; from grandparents striving for more active lives, to athletes aiming to stay at the top of their games, recovering weekend warriors, and everyone in between.

7 Committed to your well-being, DNA Vibe backs every product with a 60-day "Good Vibes Guarantee": If you give it an honest try and it doesn't help you, DNA Vibe provides a full refund.

8 DNA Vibe is not only far more advanced than conventional light therapies, it's also the only wearable light therapy technology manufactured in the USA (and it's a Veteran-founded company to boot).

Feel Better. Guaranteed.

How it works

Intelligent Light Therapy works gently and in harmony with our body's natural processes to improve recovery & performance through several natural, complementary & reinforcing effects:

CELLULAR VITALITY

Stimulates messenger RNA which naturally enhances the synthesis of amino acids and proteins to help restore healthy tissues, while also promoting the production of ATP which naturally fuels increased cellular energy and vitality.

BLOOD FLOW

Relaxation and expansion of vessels and capillaries increases blood flow which delivers more oxygen and red blood platelets. Oxygen provides energy and vitality at both the cellular and systemic levels. Platelets carry natural growth hormone which helps restore healthy tissues.

DE-INFLAMMATION

Microvibration promotes the flow of non-vascular fluids which helps evacuate toxins and, along with improved blood flow, helps relieve localized congestion and pressure which eases stiffness, inflammation and pain sensitivity while enhancing flexibility and range of motion.

Beyond light therapy

Based on decades of research in molecular biology, genomics & optical physics, DNA Vibe's unique understanding of how light therapy works drives several distinctive & proprietary advantages:

- 4 complementary modes in red, near-infrared, magnetic pulse & micro-vibration domains
- Reduced intensity with focus on frequency precision & stabilization via anti-drift technology
- Full-silicone encapsulation for flush-fit wearability & optimal micro-vibration propagation
- Proprietary light diffusion technology for even saturation & avoidance of undesirable spikes
- Versatile geometry optimized for universal use (back, neck, knee, elbow, wrist, hands, feet...)
- Proudly made in the USA with pioneering advanced manufacturing methods.

These and other advantages are why so many Vibers are experiencing and sharing the life-changing impact of DNA Vibe's unique technology. While the technology is inspiring, it's the results that matter.

Not just a product. A movement.

We're on a mission to make the world a better place one better life at a time. We're determined to help more people do more of what they love at a higher level for a longer time. Give it a try. You'll feel better, guaranteed.

PET TAO

HARMONIZE LIVER

CONTAINS A WHOLESOME, SYNERGISTIC BLEND OF ENZYMES, HERBS, AND VITAMINS, COMBINED WITH ANTIOXIDANTS TO HELP SUPPORT THE OVERALL HEALTH OF YOUR PET'S LIVER.

Your pet's liver is one of the largest organs in its body, and is involved in almost every biochemical process needed to run the body. Improper liver function can negatively affect digestion, causing a shortage of essential vitamins and nutrients. In addition, dangerous toxins could build up in the bloodstream and tissues. The good news is, the liver is one of the only organs that has an amazing ability to repair and regenerate itself once it has been damaged. PET | TAO Harmonize Liver, combined with a healthy, nutritious diet, free from additives and preservatives, can help to support normal liver function. Harmonize liver can be given anytime, even on an empty stomach, and can be used long-term.
