One clinical case.
A global conversation.

Every patient has a story. Every case contributes to medical progress.

The American Journal of Traditional Chinese Veterinary Medicine (AJTCVM) is an international, peer-reviewed journal exploring traditional Chinese veterinary medicine both in its clinical application in integrative veterinary medicine and the publication of original scientific research in veterinary acupuncture, Chinese herbal medicine, Tui-na and food therapy. AJTCVM has an archive of clinical and research articles going back to 2006 when the journal was founded!
